

# 30<sup>th</sup> AGM Secretary Report

Prepared by: Chris Butler

Date: 18 May 2024

## Introduction

This is my sixth report as Secretary, NZ Federation of Motoring Clubs Inc.

The secretarial office has again run smoothly this year. All but one of the executive meetings were held via video conference. We also had many online meetings on specific topics, resulting in smooth, agile and timely operations. This is my final year as secretary, and I really look forward to some great candidates at next year's AGM. If you would like to consider this role, where you are in the thick of a fabulous organisation, feel free to give me or Garry a call.

## Website and Records Management

The website continues to be well used and is one of our key communication channels. All AGM registrations this year were processed online, facilitating smooth registration processing.

In the past year there have been 9,300 visitors to the site with 23,000 page views.

The website will be modernised this coming year, so watch this space.

## Communications

As part of our modernisation programme, we have a new logo, which better reflects our name, using the steering wheel to "drive into our future".

We have partnered with [Cumulo9](#), one of our key sponsors to aid with the digital transformation programme to gain admin efficiencies and further reduce operating overhead in both time and cost. I thank and recommend the team at Cumulo9 for their commitment to the Federation.

## Membership

For the 2023/2024 year, the FoMC has 150 member clubs, a net increase of 1 club from last year, representing 149,494 members and 126,872 vehicles. We gained 3 and lost 2 clubs due to dwindling numbers.

We will be automating the subscription invoicing process this year, which will save many hours of effort.

Reminder please to send through any change of officers (president, secretary & treasurer), as this really helps with ensuring communications gets to the right people in your club.

A handwritten signature in blue ink, appearing to read "Chris Butler".
